

1 Symulatory Panels - £30 + P&P

- a. Selection of radio panels and knobs
- b. MCP Panel – still with Symulatory electronics but the panel could be used to build your own
- c. Set of rotary encoders to allow you to build your own radios etc.

2 Microphones - £5 + P&P

- a. Pair of cockpit/CB style microphones
- b. 1 x Connector and Mic Hanger to fasten into your sidewall
- c. Nice trinket to add to the general cockpit 'clutter'

3 CH Products Yoke - £30 + P&P

- a. Desktop Yoke
- b. USB Connection

c. <http://www.chproducts.com/Flight-Sim-Yoke-v13-d-705.html>

4 CH Products Pedals - £25 + P&P

- a. USB Connection
- b. <http://www.chproducts.com/Pro-Pedals-v13-d-716.html>
- c. Good condition although I am unsure if one of the pots is going as on full travel it has occasionally 'flipped' direction. Works fine 99% of the time.

5 CH Products Throttle Quadrant - £40 + P&P

- a. Desktop TQ
- b. USB Connection
- c. Hardly used
- d. <http://www.chproducts.com/Throttle-Quadrant-v13-d-718.html>

6 Short Throw Projector £125 + P&P

- a. Optoma EX525ST Projector
- b. Big screen from short distance
- c. Only 40 hours used on the lamp
- d. Excellent condition
- e. Long DVI lead included
- f. <http://www.optoma.co.uk/uploads/brochures/EX525ST-B-en-GB.pdf>
